## MIDTOWN/CULTURAL DISTRICT Historic Building Profile

The Midtown area's historic buildings represent an important resource in terms of their architectural character and the unusual opportunity afforded by the concentration of active and vacant theaters within the Cultural District. The Midtown/Cultural District plan will protect existing theaters and other historic buildings and provide the revitalization necessary for them to be renovated or remain viable.

The Downtown Interim Planning Overlay District (IPOD) designates historic properties to be protected over the three year period during which studies will be undertaken for a series of downtown districts, including the Midtown/Cultural District. Through a permanent zoning amendment, the Midtown/Cultural District plan will set in place the long term protection of historic buildings.

The architecture of the Midtown/Cultural District includes a wide range of styles reflecting a gradual and unplanned evolution from rural to urban and from residential to commercial. Several distinctive individual buildings from the Federal era have survived here, along with cohesive ensembles of Victorian commercial buildings, brick "lofts," and turn-of-the-century "skyscrapers".

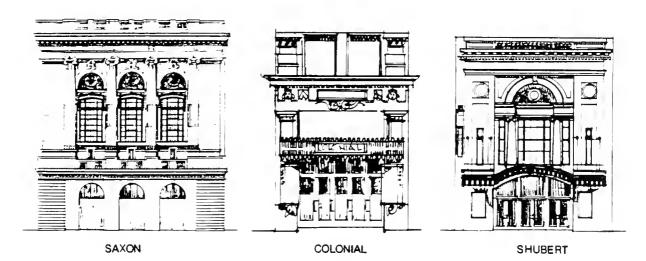

CHARLES STREET PLAYHOUSE

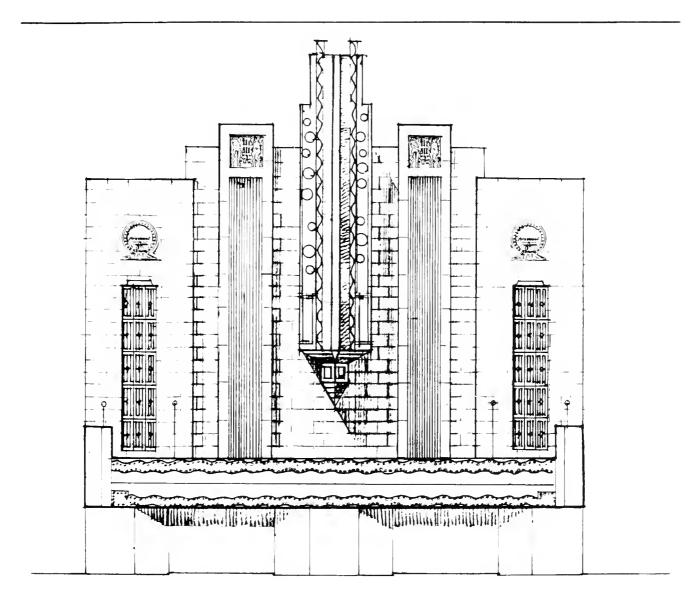

#### THEATER FACADES

### Historic Theaters

The identity of the Cultural District as an entertainment center dates back to the 19th century. The existing theaters were built for stage plays, vaudeville, burlesque, and movies over an 80 year period. These theaters represent the city's finest examples of every 20th century theater type. Historically, the area was also significant as the fashionable location for piano showrooms and music businesses which occupied the fine buildings along "Piano Row". The area achieved its greatest significance during the period from about 1890 to 1930 when most of the major surviving theaters and commercial buildings were constructed.

·		

Paramount Theater 549-563 Washington Street 1,400 Seats Build 1930-32

Style:

Modern theater facade with Art Deco sign and

marquee, cast stone concrete; Art Deco interior.

Architect:

Arthur W. Bowditch, also designed Old South Building

and Hotel Somerset

Originally:

Built exclusively for motion pictures.

Current Status:

Vacant; generally in tact, renovation and reuse is

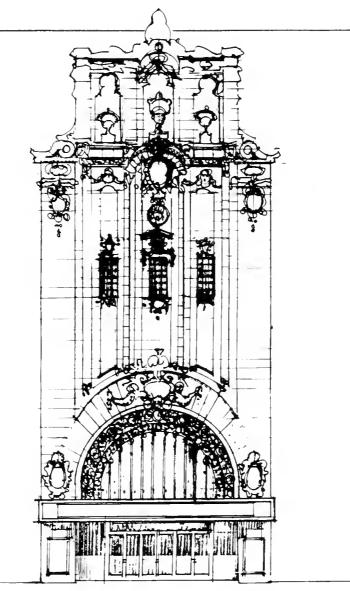

underway.

Historic Rating:

Designated Boston Landmarks, interior and exterior;

listed in the National Register of Historic Places.

Opera House (Savoy B.F. Keith Memorial) 539 Washington Street 3,200 seats, built 1925-28

Style: narrow street facade - flamboyant terracotta Beaux Arts

theatre entrance, Spanish baroque inspiration with

garlands, cartouches, allegorical figures, urns, wreaths;

French baroque interior

Architect: Thomas Lamb, nationally prominent theater architect

Originally: vaudeville and film playhouse to honor B.F. Keith,

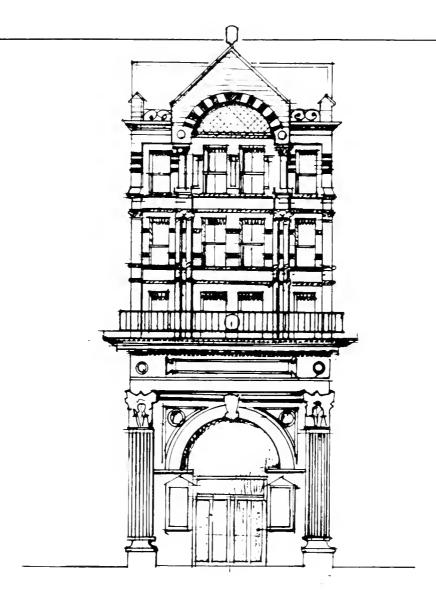

"father of vaudeville", 1929 to movies (Savoy)

Current status: Opera House for non-profit Boston Opera Company

Historic rating: Under study for designation as Boston Landmark;

Category II, listed in National Register of Historic

·		

Modern Theater (Dobson Building) 523-527 Washington Street 900 seats, built 1872, theater 1913

Style: high Victorian commercial building with 1913 marble

classical entrance, sandstone and Vermont marble, "French

Renaissance" interior

Architect: 1876 Levi Newcomb and Son, theater: Clarence H.

Blackall, Wallace Sabine

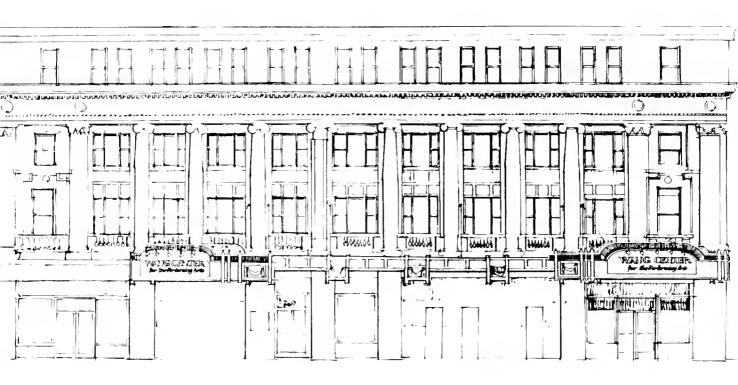

Originally: built as commercial building, in 1913 first Boston movie

theater, later used for vaudeville and burlesque

Current status: vacant

Historic rating: Category II, listed in National Register of Historic

÷		

Wang Center (Music Hall, Metropolitan Theater) 252-272 Tremont Street 4,000 seats, built 1923-25

Style:

Renaissance Revival, 155' limestone "palazzo skyscraper", two-story ionic colonnade, Corinthian pilasters, theater

masks along cornice, Louis XIV ornate interior

Architect:

Clarence H. Blackall, nationally prominent theater archi-

tect who designed 6 other district buildings

Originally:

promoted as "the public's castle" with "a thousand and one wonders" it included "the grand lobby with four tiers of promenades, spacious lounges, marble doorways, rose jasper pillers, two 1,800-lb. gold plated chandeliers, bronze details by the Gorham Company, and \$10,000 in gems decorating the central mural painting by Edmund Philo Kellog....Waiting patrons could arrange for bridge parties, lounge in comfortable chairs with the latest magazines, promenade to the music of two lobby orchestras, play ping pong, or visit the chic art deco

restaurant which opened in 1932."

Current status:

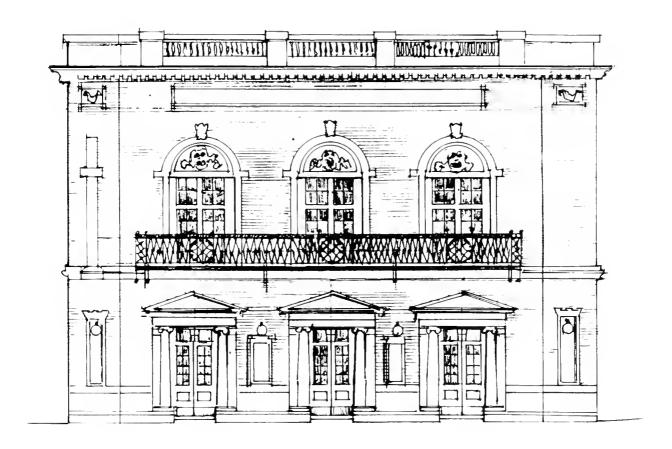

active, largest theater in Boston's history

Historic rating:

Boston Landmark designation pending; Category II,

listed in National Register of Historic Places.

Wilbur Theatre 244-250 Tremont Street 1,200 seats, built 1913-14

Style: Colonial Revival, red brick with marble trim including

ionic columns, theatre masks above three arched, elongated

windows

Architect: Clarence H. Blackall, nationally prominent theater archi-

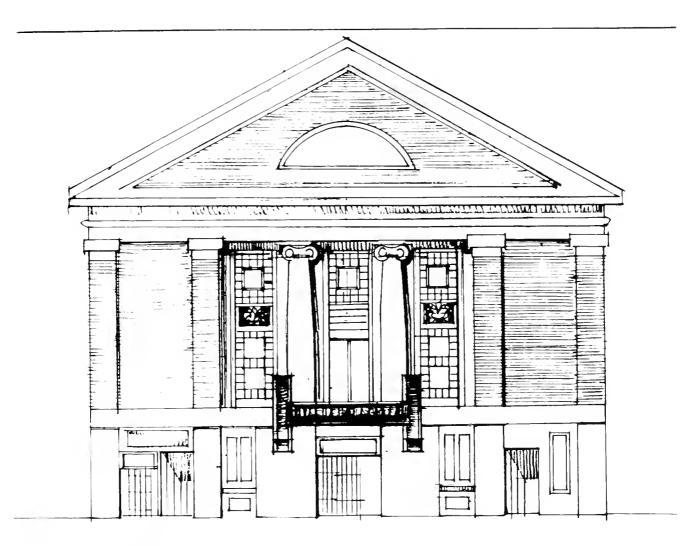

tect, who designed 6 other buildings in the district

Current status: active commercial theater

Historic rating: Category II, listed in National Register of Historic

Places. Under study (1986) for Boston Landmark designa-

tion.

Charles Playhouse 76-78 Warrenton Street 400 seats, 200 seats, 150 seats, built 1838-9

Style: Greek Revival temple front - red brick

Architect: Asher Benjamin who also designed Charles Street Meeting

House and Old West Church and is famous for his builder's guidebooks which greatly influenced the spread of Federal and Greek Revival architecture throughout New England

Originally: Fifth Universalist Church, then Hebrew Temple, then

Scottish Presbyterian Church

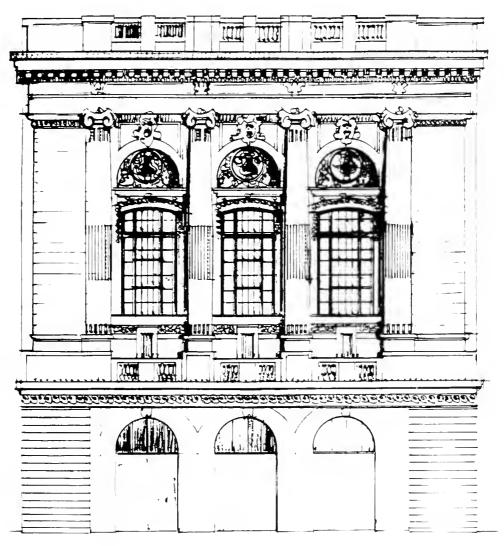

Current status: three small active theaters - the transformation of church

to theater maintained the original facade and interior

spaces but little interior detailing remains.

Historic rating: Category II, listed in National Register of Historic

÷		

Saxon Theatre (Majestic) 219-221 Tremont Street 1,000 seats, built 1901-1903

Style: Beaux Arts, granite base, grey terracotta, four 3-story

Roman ionic columns, arches with theater masks and stained glass windows between columns, opulent rococo

interior

Architect: John Galen Howard and James M. Wood

Interior - Henry B. Pennell

Lobby murals by William deLeftwich Dodge who also

painted Library of Congress murals

Originally: used for musicals and light opera, converted to movie

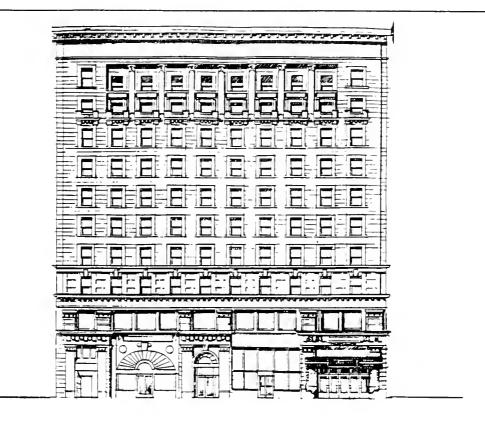

house 1957

Current status: vacant

Historic rating: Designated Boston landmark; interior Category II, exterior

Category III. Listed in National Register of Historic

•		

Colonial Building/Colonial Theatre 96-106 Boylston Street 1,700 seats, built 1899-1900

Style:

Renaissance Revival, 155' "palazzo skyscraper", Milford pink granite; rich, florid interior with Italian inspirations, unique series of murals

Architect:

Eminent theater architect, Clarence H. Blackall, H.B.

Pennell (interior)

Current status:

active theater within office building, oldest intact theater

in Boston

Historic rating:

Building category III, Theater Category II. Under study for designation as a Boston Landmark (1986).

Sam S. Shubert Theatre 263-265 Tremont Street 1,600 seats, built 1908-1910, present facade 1925

Style: classically-inspired, two-story Palladian-motif window,

original 1910 wrought iron, French "Adamesque" interior,

and glass marquee

Architect: Hill, James and Whitaker,

Thomas M. James, principal architect also designed Union

Warren Savings on same street

Originally: theatrical high points have included the first Boston

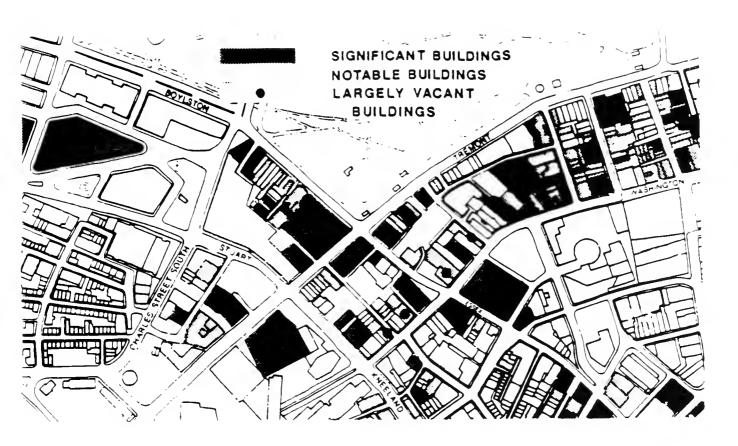

performances of British actors John Gieguld, Maurice Evans, Sir Laurence Olivier, and the 1917 performance by John Barrymore, one of the greatest 19th century

American actors.

Current status: active commercial theater

Historic rating: Category III, listed in National Register of Historic

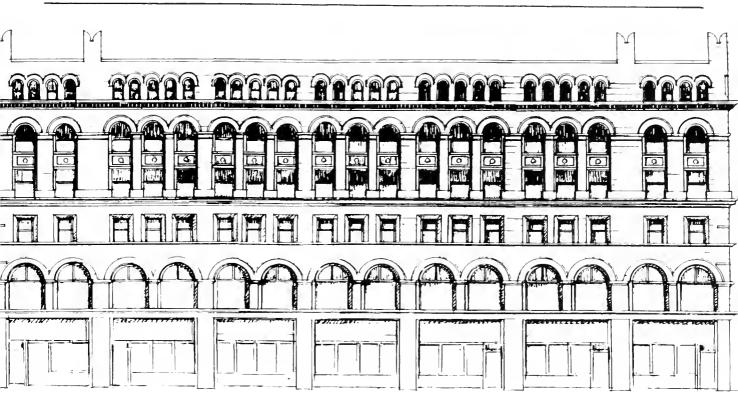

### Boston Landmarks Commission Rating and Designation

The Boston Landmarks Commission has undertaken a survey of historic buildings within the downtown and has rated them as "significant" (in three hierarchical categories) or "notable". City policy protects significant historic properties from demolition and adverse alteration while encouraging the preservation of notable historic properties. The Boston Landmarks Commission also designates as Boston Landmarks exceptional historic properties which cannot be demolished and which must have systematic design review before being altered.

China Trade Center (Boylston Building) 2-22 Boylston Street Built 1887

Style:

19th century commercial structure with Renaissance and

Romanesque detailing, Nova Scotia sandstone

Architect:

Carl Fehmer

Current status:

renovated for the China Trade Center shops and food

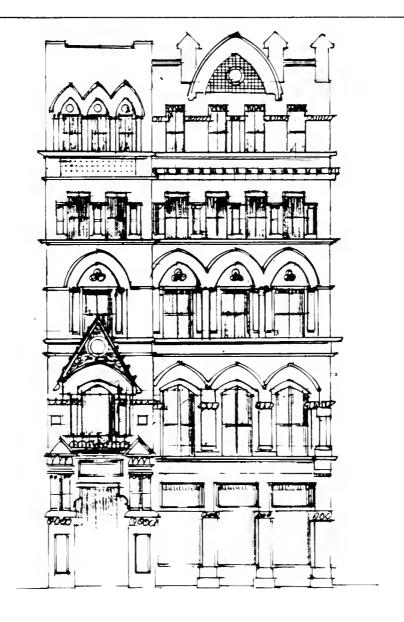

court with 6-story atrium

Historic rating:

Designated Boston Landmark; Category II, listed in

National Register of Historic Places.

(Y.M.C.U.) Boston Young Men's Christian Union 48 Boylston Street Built 1875

Style: High Victorian, granite and sandstone

Architect: N.J. Bradlee

Current Status: Continues as recreational and fellowship organization

with gymnasium and meeting rooms; Y.M.C.U would

like to renovate and expand.

Historic Rating: Designated Boston Landmark; Category II; listed in

the National Register of Historic Places.

Jacob Wirth Buildings 31-39 Stuart Street Built 1844-45

Style: Attached brick, Greek Revival rowhouses with bow

front bay windows.

Architect: Developer housewrights Greenleaf C. Sanborn,

Thatcher Ross and Thomas C. Wait

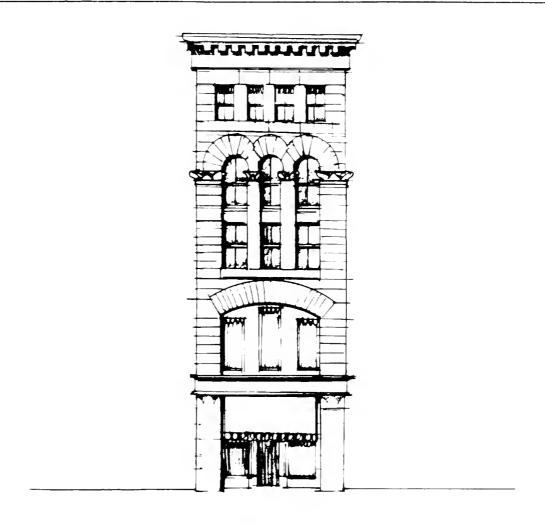

Originally: Built as rental units for "gentlemen"

Current Status: Restaurant of authentic German food

Historic Rating: Category II; designated Boston Landmark; listed in the

National Register of Historic Places.

Hayden Building 681-683 Washington Street Built 1875

Style:

Romanesque with characteristically Richardsonian

features.

Architect:

H.H. Richardon, eminent architect, one of his few

commercial buildings.

Current Status:

Vacant

Historic Rating:

Designated Boston Landmark; Category II; listed in

the National Register of Historic Places.

## National Register of Historic Places

Within the Midtown Area there are several National Register Districts. The National Register of Historic Places, compiled by the U.S. Department of the Interior, serves to identify properties which are considered as national cultural resources. While listing of a property in the National Register has no official effect on strictly private actions, it calls attention to the historic value of the building. Any federally licensed or assisted projects which affect a property listed in the National Register must undergo extensive review.

### Beach/Knapp District

Established in 1980 as a National Register District, the Beach/Knapp area is composed of six buildings located on two side streets between Lower Washington Street and the Harrison Avenue edge of Chinatown. The buildings reflect the historical development of the area from residential to mixed commercial and light industrial/warehouse uses. They are architecturally significant as fine examples of particular building types, including Greek Revival rowhouses and brick "loft" buildings. Also in the area is the former "Shakespearian Inn" (renovated for housing) with its unusual four-story iron oriels, elaborate cast iron capitals and cast iron plaque of the hotel's namesake.

#### Commercial Palace\*

\* The district has been submitted and determined as eligible by the Secretary of the Interior. However, it will not become an official district until such time when district property owners re-vote to allow final designation.

History of the Commercial Palace District shows that it was once a fashionable residential area prior to becoming the most active drygoods district of the northeast during the Civil War. In 1872 the entire district was destroyed by fire and was immediately rebuilt with similar mass and scale. The winding street pattern dates back to the Colonial period is, in itself, significant and has remained unchanged. The Bedford Building (85-105 Bedford Street) is a significant structure as one of the few examples of Ruskian Gothic architecture in the polychromatic style in Boston.

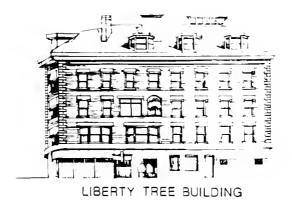

## Newspaper Row

Newspaper Row is a group of four contiguous commercial buildings located on Washington, Milk and Hawley Streets. All four buildings are the work of major Boston architects and represent the high quality of architecture following the Great Fire of 1872. They are all that remain of the once larger publishing district that thrived during the 19th century. During this period, the Transcript (Transscript Building, 5-11 Milk Street) was the largest circulatory daily in New England and the Post (Boston Post Building, 15-17 Milk Street) was Boston's leading democratic newspaper. The Post and the Transcript buildings are the only remaining monuments to this district which helped establish Boston as an important printing and publishing center.

#### West Street Historic District

The West Street district is composed of four early 20th century commercial buildings located at the northern edge of the Cultural District, close to the heart of the downtown retail shopping area. Two of the buildings face Tremont Street and two are located on the south side of West Street. The buildings are of high architectural quality and illustrate important trends in the history of Boston's retail shopping trade. The limestone facades along the south side of West Street, for example, are unusual in their harmony of scale and materials and the intact quality of several of the cast iron storefronts.

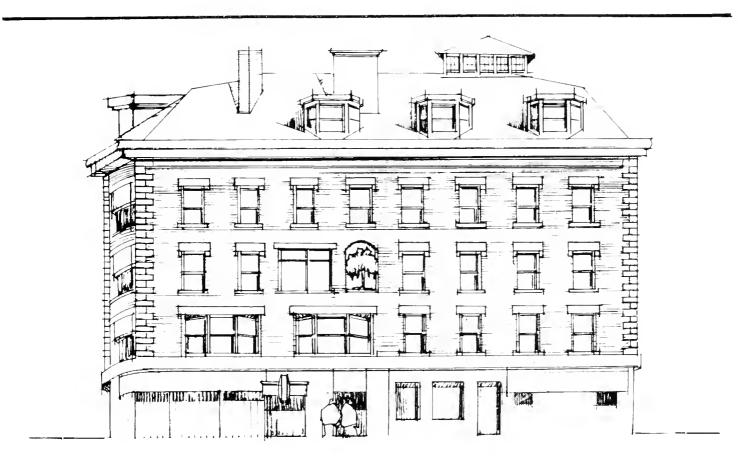

Liberty Tree District

During the pre-Revolutionary War period, demonstrations against British rule were commonly held at the corner of Washington and Essex Streets, the site of the magnificent American elm known as the Liberty Tree and the Liberty Tree Tavern. The Liberty Tree district consists of six mid-to-late 19th century commercial buildings forming one corner of this prominent intersection. Across the street from this grouping, the Boylston Building, renovated for the China Trade Center, stands behind a park where the Liberty Tree once stood.

Liberty Tree Building 628-636 Washington Street Built 1850

Style:

19th century commercial bloc, red brick, brownstone

trim, carved wooden Liberty Tree plaque set in niche

Architect:

Amos Cotting, Supervisor

Originally:

Built in shops with two upper floor halls -  $30' \times 75'$  and

40'x80' (Union Hall)

Current Status:

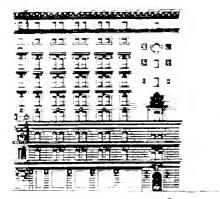

Largely vacant

Historic rating:

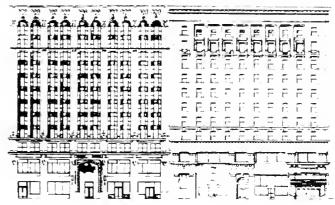

Category II; listed in National Register of Historic

Places; designated Boston Landmark

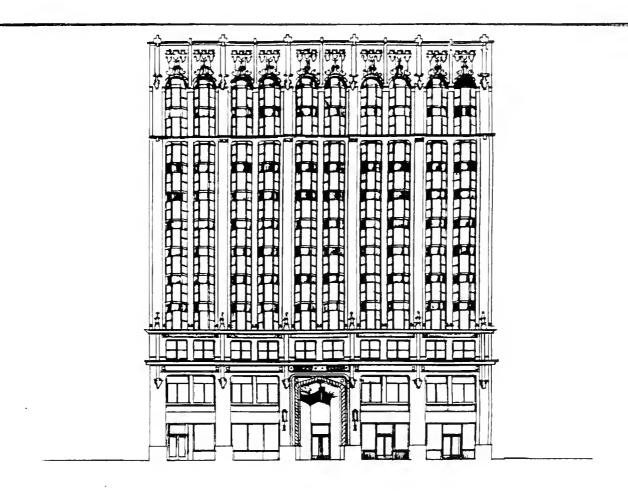

LITTLE BUILDING

#### Piano Row

Historically, the blocks extending north and west from the corner of Tremont and Boylston Streets have been called "Piano Row" because of the concentration of piano showrooms and music-related industries. The Piano Row district, composed of 29 buildings, achieved its greatest significance between 1890 and 1930 when the area was completing its transition from a residential neighborhood to a commercial center. Visually, the two blocks of "Piano Row" frame the corner of the Boston Common and create a city focal point dominated by important early 125' "skyscrapers". The area is notable for the high quality of its turn-of-the-century commercial buildings and the Colonial and Saxon (Majestic) theaters, as well as the early 19th century townhouses along Boylston Place.

Little Building 74-94 Boylston Street Built 1916-17

Style: Modern Gothic, steel frame skyscraper

Architect: Clarence H. Blackall, prominent Boston architect, well

known for his theater designs as well as being responsible for the city's first skeleton construction

building, the Carter/Winthrop building.

Originally: Office building/shopping arcade. This building stands

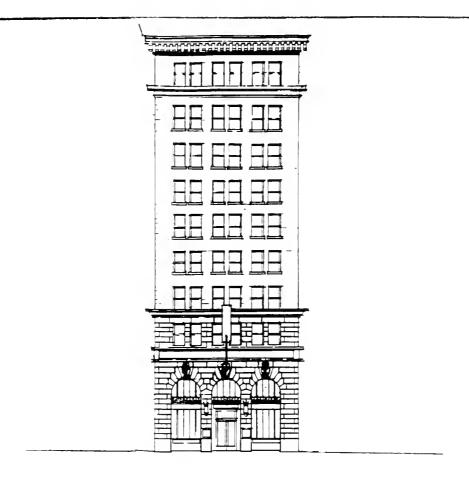

on the site of the old Hotel Pelham, the first

apartment-hotel on the East Coast.

Current Status: Restaurant; retail; office

Historic Rating: Category III; listed on the National Register District of

Union Warren Savings Bank 216-18 Tremont Street Built 1925

Style: Late Renaissance Revival, steel frame palazzo

skyscraper.

Architect: Thomas M. James Company, also responsible for

designing the Shubert Theater

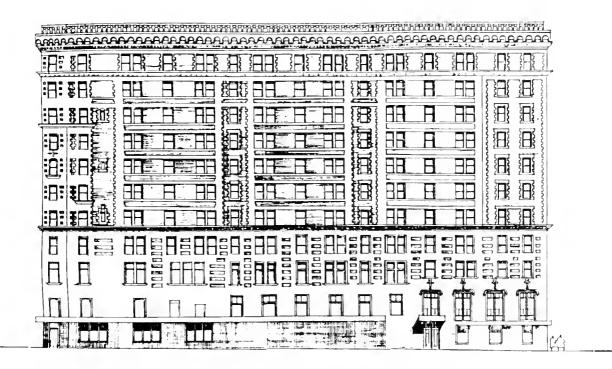

Originally: Bank building

Current Status: Office; retail

Historic Rating: Category IV; listed on the National Register of Historic

Places.

Hotel Touraine 62 Boylston Street Built 1897-98

Style:

Free-standing Jacobethan, early skyscraper; brick and

limestone

Architect:

Winslow & Wetherall, native Bostonian architects, also responsible for many large Boston commercial buildings

such as the Walker, Pray and S.S. White Dental

buildings.

Originally:

Built as a luxury hotel on the original site of President John Quincy Adam's mansion house.

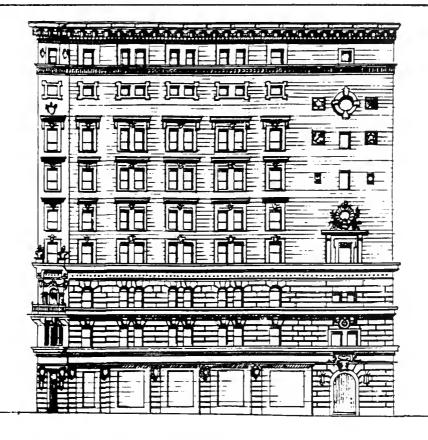

Current Status:

Retail; residential

Historic Rating:

Category III; listed on the National Register of

Masonic Temple 183-87 Tremont Street Built 1897-99

Style: Steel frame "palazzo" skyscraper, Renaissance Revival.

Architect: George Loring and Stanford Phipps, public and

commercial architects.

Originally: Built as the third Masonic Temple on the site as the

headquarters for the first Masonic Lodge in America and the highest Masonic authority in New England.

Current Status: Masonic Temple

Historic Rating: Category III; listed on the National Register of

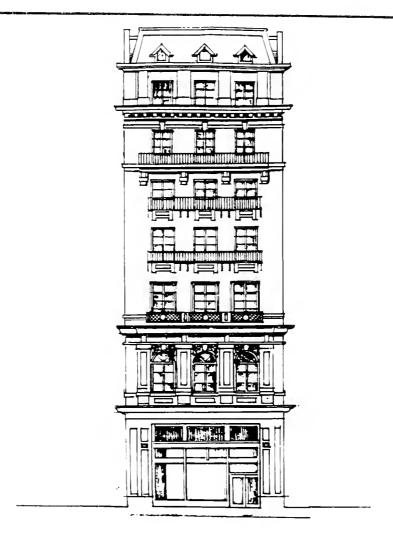

## Washington Street Theater District

The Washington Street Theater District is located along the west side of Washington Street near the heart of Boston's downtown shopping area. The district contains seven buildings dating from the 1870s to the early 1930s and is the site of Boston's most concentrated theatrical activity after the mid-19th century. The area witnessed the first showing and later development of the moving picture in Boston. Further, this block is of national importance as being the block on which vaudeville was born. The rich architectural diversity of this area ranges from late Beaux Arts to Art Deco. This district is one of the few surviving that contains a historical concentration of buildings devoted to one area of endeavor - the performing arts - and it is unique in the richness of its theatrical past as well as in the diversity of architectural styles which are the result of this long tradition.

Bigelow-Kennard Building 511-13 Washington Street Built 1912

Style:

Early Beaux Arts Skyscraper

Architect:

Unknown

Originally:

Bigelow, Kennard & Company jewelry and specialty
